### Learning Through Play:

We are glad to share the information about the last month experience gained by our lovely kids through various activities.

### Kinder Room:

Kinder showed lots of interest in insects, they learn about their habitats and eating habits too. They also explored their skills and creativity by working with variety of open ended material. As part of 'solar system' theme, children were very excited and involved in learning about planets and stars. They learnt the complex terms in regard to the solar system and also experienced the uses of telescope.

### Preschool Room:

This month was very exciting and full of learning for preschoolers. As part of 'Fire safety' theme, they learned about how to be safe in case of fire, played with fire trucks and did pretend fire drills too. They also gained knowledge about road signs and various means of transportation during the 'road safety & transportation' theme. At the end of the month, children started showing their interest in water animals as being a part of 'ocean' theme.

### Toddler Room:

Our toddlers were very much focused on colors and shapes last month. They also had fun with dramatic play of ice cream parlor. While engaged in coloring and painting toddlers develop good grasping, hand-eye coordination and their motor skills too.

### Glimpses from last month:

- We, at the centre celebrated **Heritage Day** on July 30<sup>th</sup>, 2021.
- Preschoolers, toddlers and kinder made heritage art with logo on it.

We are looking forward for your further co-operation and support. Feel free to give us your suggestions and feedback regarding our working process.
